

# OpenText™ Fortify on Demand Plugin for Eclipse v23.1

## Release Notes

Document Release Date: August 29, 2023

Software Release Date: August 29, 2023

## New in this Release

A new option was added to package source code with Fortify ScanCentral SAST for upload to Fortify on Demand. Fortify ScanCentral SAST automatically packages all necessary dependencies and source code required for static scanning (including the files required for Debricked open source scanning).

The Fortify on Demand Plugin for Eclipse is available from the Eclipse marketplace:

<https://marketplace.eclipse.org/content/fortify-demand-plugin>.

## Fixes

The following fixes were implemented in this release.

- The Technology Stack and Language Level lists available for uploading code to Fortify on Demand match what is available in Fortify on Demand.
- Microservice selection is now available when you create a new release from the plugin.

## Documentation

The documentation is available from the following OpenText Product Documentation website:

<https://www.microfocus.com/documentation/fortify-on-demand>.

## Support

If you have questions or comments about using this product, contact Customer Support. When contacting Customer Support, provide the following product information:

Software Version: 23.1

Software Release Date: August 29, 2023
