# OmniGroupServer

Software Version 12.11.0

Release Notes

Document Release Date: February 2022  
Software Release Date: February 2022

## Legal notices

© Copyright 2022 Micro Focus or one of its affiliates.

The only warranties for products and services of Micro Focus and its affiliates and licensors (“Micro Focus”) are as may be set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. Micro Focus shall not be liable for technical or editorial errors or omissions contained herein. The information contained herein is subject to change without notice.

## Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit <https://www.microfocus.com/support-and-services/documentation/>.

## Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- View information about all services that Support offers
- Submit and track service requests
- Contact customer support
- Search for knowledge documents of interest
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in.

## New in this Release

The following new features were released in OmniGroupServer version 12.11.0.

- When you use the LDAP module to retrieve users and groups from Microsoft Active Directory (ActiveDirectory=TRUE or LDAPType=MAD), OmniGroupServer adds every user to the \EVERYONE group.

## Resolved Issues

The following issues were resolved in OmniGroupServer version 12.11.0.

- High memory usage when using the ogs\_azure library.
- The library libmemcpy-2.14.so was missing from the installation package.

# Supported Operating System Platforms

OmniGroupServer 12.11.0 is supported on the following platforms.

## Windows (x86-64)

- Windows Server 2019
- Windows Server 2016
- Windows Server 2012

## Linux (x86-64)

The minimum supported versions of particular distributions are:

- Red Hat Enterprise Linux (RHEL) 7
- CentOS 7
- SuSE Linux Enterprise Server (SLES) 12
- Ubuntu 14.04
- Debian 8

## Solaris (x86-64 and SPARC 64)

**DEPRECATED:** Support for Solaris x86-64 and SPARC 64 was deprecated in IDOL version 12.10, for all IDOL components except KeyView. IDOL components are currently still available for Solaris, but might not be available in future.

- Solaris 11
- Solaris 10

# Documentation

The following documentation was updated for this release.

- *OmniGroupServer Reference*
