

AppEnhancer

AppEnhancer is a document management system that provides organizations with a comprehensive solution for capturing, managing, and distributing documents and document-centric data across various platforms.

AppEnhancer offers a breadth of features for document imaging, workflow automation, search & retrieval, role-based access controls, auditing, and retention management, enabling businesses to streamline their document-intensive processes and improve overall operational efficiency. With its scalable architecture and wide range of integration capabilities, AppEnhancer empowers organizations to effectively organize and access their critical documents, enhancing productivity and compliance while reducing costs and reliance on paper-based workflows.

Product Feature	Feature Benefits	Version					
		23.2	22.2	20.4	16.6	16.3	8.0
HTML5 User Interface	Modern user interface provides cross-platform access from any browser	●	●	●	●	●	●
Reactive, Tablet-friendly client	Supports tablet devices	●	●	●	●	●	●
Web Administration Console	Eliminates IE dependencies and ActiveX Plugins	●	●	●	●	●	●
REST API Services	Introduction of REST Service API	●	●	●	●	●	●
Cloud Capture Toolkit	Cloud-based capture toolkit	●	●	●	●	●	
Faster thumbnail previews, OCR processing, and batch processing	Faster document processing, better user experience	●	●	●	●	●	
Document preview pane in search results	Enhanced document search and navigation	●	●	●	●	●	
Embedded OCR engine	Text extraction from documents	●	●	●	●	●	
Integrated text search (results-based text search)	Improved search functionality	●	●	●	●	●	
Improved rendering performance via Oracle OutsideIN	Better document rendering	●	●	●	●	●	
Landing pages for easy access to recent and frequently accessed content	Streamlined access to frequently used content	●	●	●	●	●	
Updated Workflow Engine (Skelta BPM)	Enhanced workflow capabilities	●	●	●	●		
Integration with Oracle OutsideIN	Better integration with Oracle technology	●	●	●	●		
Integration with Microsoft Office Online Server (OOS)	Integration with Office Online Server	●	●	●	●

Product Feature	Feature Benefits	Version					
		23.2	22.2	20.4	16.6	16.3	8.0
Support for Microsoft Azure Core Services	Azure cloud service support	●	●	●	●		
Support OpenText Directory Services (OTDS)	Improved directory services support	●	●	●	●		
UI enhancements	Enhanced user interface	●	●	●	●		
Security and authentication enhancements (OAUTH, SAML2)	Enhanced security and authentication	●	●	●			
Integration with OpenText Output Transformation Server (OTS)	Improved document transformation and output	●	●	●			
Integration with AppWorks BPM Workflow	Better integration with BPM Workflow	●	●	●			
ApplicationXtender Office 365 add-in	Office 365 integration	●	●	●			
Role-based administration console	Enhanced administration controls	●	●	●			
Enhanced reporting and monitoring	Better reporting and monitoring tools	●	●	●			
Re-branded as AppEnhancer	Improved branding and recognition	●	●				
Embeddable AE Native Viewer (built for AppWorks)	Enhanced document viewing within AppWorks	●	●				
Core Signature Integration	Integrated digital signature functionality	●	●				
Docker Images for deploying "core" components	Easier deployment of core components	●	●				
Dynamic component registration (via CLI)	Simplified component registration	●	●				
UI Framework		●					
AngularJS Security Updates		●					
Licensing		●					
SPS licensing (OTDS)		●					
User Productivity		●					
Recycle Bin		●					
Hidden Fields		●
